

OPC PLUS / ANTIOXIDANT PLUS

OPC stands for Oligomeric Proantho Cyanidins. Tiens-OPC Plus and Antioxidant Plus is a natural plant bioflavonoid, which strengthens and protects living tissue. The extracts in this unique product provide powerful antioxidant protection.

BENEFITS:

Strengthens Heart Health

- Enhances and strengthens the heart, including the capillaries and vascular walls

Acts as a powerful anti-oxidant

- Helps reduce "biological" age and may slow the effects of age related diseases, such as memory and vision loss
- Helps reverse cellular damage caused by free-radicals to slow down the body's aging process
- Grape seed and blueberry extracts contain the flavonoids OPCs, which provide antioxidant protection against heart disease and cancer.

UNIQUE FEATURES & BENEFITS:

Each OPC plus capsule contains 100% grade "A" extract, of grape seed and blueberry.

Blueberries have the highest antioxidant content of any fruit (based on ORAC value, an antioxidant testing procedure.) This was higher than strawberries, cranberries, plums and strawberries. - (USDA, 1997)

Grapeseed extract is 20 times more potent than Vitamin C and 50 time stronger than Vitamin E

FREQUENTLY ASKED QUESTIONS:

What is the difference between Gynostemma and OPC Plus?

Circulatory System

Gynostemma supports the heart and its systems, by reducing hardening of the arteries, controlling high blood pressure and hypertension, and maintaining cholesterol levels.

Strengthening the heart muscle

OPC Plus acts on the heart vessels and tissue, which helps improve circulation and strengthens the capillaries.

KEY REFERENCES:

A study from the Netherlands showed that the risk from dying of heart disease decreases as the intake of flavonoids from grape seed increases.

(Hertog MC, et al. Lancet, 1993)

Grape seed flavonoids that act as antioxidants, help prevent genetic mutations, which may lead to cancerous cells, by neutralizing harmful free radicals.

(Tanake T; Cancer, 1995)

A diet, which includes blueberries, has shown effective in improving motor skills and even reversing short-term memory loss.

(Joseph, James, Nutritional Neuroscience, 1999)
