

MOBILITY ENHANCER

Over 4 million Canadians are stricken with arthritis or joint pain. For this reason, Tiens Mobility Enhancer was created. Whether you are just trying to enjoy a more carefree life or are into serious athletics, Mobility Enhancer should be a part of your daily regimen.

BENEFITS:

Relieves Joint Pain

- Tiens Mobility Enhancer can help support your joints before injury, as well as after injury.
- Assists in maintaining healthy joints and enhancing flexibility
- To aid in nourishing cartilage, maintaining normal cartilage production
- Helps reduce the risk of osteoarthritis

Supports the Skeletal System

- Providing maximum support for a healthy skeletal system
- Supplementing calcium to help support bone growth and maintenance over the years
- Helps reduce the risk of osteoporosis

UNIQUE FEATURES & BENEFITS:

What makes Tianshi Mobility Enhancer different than other glucosamine/chondroitin products on the market?

- Along with glucosamine and chondroitin, Mobility Enhancer contains calcium, magnesium, Vitamin D and other minerals, which support joint and bone health.
- The two main ingredients, Glucosamine and Chondroitin, have been well documented to support joint health. Glucosamine is an important building block needed by your body to produce Glycosaminoglycans, an important part of your cartilage.
- Chondroitin Sulfate, acts as a flexible connecting material in the cartilage. It helps attract fluid into the cartilage and gives cartilage its shock absorbing properties.
- This product also contains calcium and magnesium, which can help maintain healthy bones during aging and help decrease the risk of osteoporosis

FREQUENTLY ASKED QUESTIONS:

Who should take this product?

- Those that experience joint and arthritic pain
- Active individuals of all ages, because as we get older our supply of glucosamine deteriorates

Is it safe to take Mobility Enhancer with arthritis or anti-inflammatory medication?

- It is perfectly safe to take this product with your medication. We do not recommend stopping your medication without the consultation of your physician, and to advise your doctor that you are taking this product.
